PROFESSIONAL EXPERIENCE

TechVista System (Systems Limited MEA) , Data Engineering & AI Intern Dubai, United Arab Emirates	Jun 2026 – Aug 2026
- Engineered an end-to-end lakehouse data pipeline using SQL, PySpark, and Microsoft Fabric, implementing Medallion architecture from ingestion through reporting-ready datasets. - Developed data quality validation rules, transformation logic, and governance documentation to improve consistency and reliability across a cloud-based data engineering workflow. - Designed dimensional data models, including star schemas and source-to-target mappings, to support business intelligence and analytics use cases.	
AUS International Exchange Office , Peer Representative Sharjah, United Arab Emirates	Jan 2026 – Present
- Advised 40+ prospective exchange students on study abroad opportunities, application requirements, and program planning. - Supported 20+ incoming exchange students through housing, registration, visa, and administrative processes while coordinating with university offices to resolve documentation issues.	
AUS Writing Center , Peer Tutor Sharjah, United Arab Emirates	Jan 2026 – Present
- Mentored 20+ students through one-on-one academic writing consultations, strengthening clarity, organization, and critical argumentation across diverse disciplines. - Delivered weekly 30–60 minute tutoring sessions, tailoring feedback to individual learning needs while supporting students in developing stronger written communication.	
e& (Etisalat) , Technology & IT Trainee Dubai, United Arab Emirates	Jul 2025 – Aug 2025
Developed a backend web application using Spring Boot during enterprise software engineering training, applying object-oriented design and backend development principles.	

LEADERSHIP & VOLUNTEERING EXPERIENCE

The Ada Club (Empowering Women Coders) , Vice President Sharjah, United Arab Emirates	May 2026 - Present
Previously: Media Coordinator (2024–2025) • Public Relations Coordinator (2025–2026)	
- Directed a 15-member executive committee, overseeing club operations, budgeting, event strategy, and member engagement initiatives. - Administered an annual budget of approximately AED 4,000 to support technical workshops, networking events, and community activities.	
IEEE Computer Society , Public Relations Coordinator & Student Officer Sharjah, United Arab Emirates	Oct 2024 – Jul 2025
- Conceptualized and organized a student technology event attended by 30+ participants, coordinating promotion and execution from planning through delivery. - Built partnerships with student organizations and supported communication campaigns to increase visibility and engagement for IEEE-CS initiatives.	
Student Buddy Network (SBN) , Volunteer Tutor Sharjah, United Arab Emirates	Nov 2024 – Dec 2024
Designed and delivered a programming review session for CMP 120 (Programming I), preparing study materials and guiding students through core programming concepts.	

PROJECTS

Spotify Streaming Dashboard Streamlit, Seaborn, Matplotlib, Flask
A dashboard to analyze Spotify listening history and extract insights on user behavior, including top artists, track frequency, and time-based listening patterns.
Full-Stack Pottery E-Commerce Website (Clay&Co.) HTML, CSS, JavaScript, Java, SQL
A full-stack e-commerce website for a hypothetical pottery business, implementing product listings, shopping cart functionality, and SQL-based database integration

Languages	Fluent in English and Urdu. Elementary proficiency in Arabic
